GREEN CUT BONE AND MEAT.

The Cold Weather Poultry Food. Fowls have a natural craving for animal food, especially when the weather is cold. All kinds of grains are good, but to produce lots of eggs an occasional ration of green cut bone and meat is absolutely essential. This product can be obtained of Carroll S. Page, Hyde Park, Vt. He will ship a 20-pound barrel to any address on receipt of \$3.50, and at this price pay the freight to any railroad station in New England or the middle states. Money may be sent at his risk by registered letter, postal money order, check or express money order. When writing him, mention this paper.

Bronchial Tubes All Stuffed Up

"While a resident of Washington, D. C., I suffered continually and intensely with a bronchial trouble that was simply terrible to endure. I would have sworn that I could hardly breathe. I would choke up, all up in my throat and bronchial tubes, and the doctoring that I did and the remedies used were of no benefit to me whatever. I heard about Booth's Hyomel being so beneficial in bronchial and bronchial affections and procured an outfit. I received relief from the first by its use. I continued with it and received a cure. It is about two years since I have suffered at all from my former trouble."—Mrs. R. L. Pannell, 401 N. Augusta street, Stanton, Va., March 26, 1909.

Hyomel is guaranteed by Red Cross Pharmacy to cure catarrh, croup, bronchitis, coughs, colds and sore throat, or money back.

A complete Hyomel (pronounced High-o-mel) outfit costs \$1.00 at drugists everywhere. This includes a hard rubber pocket inhaler and bottle of Hyomel; extra bottles Hyomel cost 50c.

Newfoundland fisheries question is older than the government, and it has not yet been answered. It bobs up now and again, and the secretary of state, before engaging in a parley, must read every word his predecessors have said on the subject. Diplomatically speaking, Uncle Sam with his records burned would fare ill indeed.

The department of commerce and labor is established principally in a large block designed for business purposes. It, too, has valuable records, including the trust-busting information gleaned in various investigations. For all these reasons Senator Scott has planned to place the three departments in a marble masterpiece of architecture to cost the millions aforesaid and to occupy five squares between 14th and 15th streets and Pennsylvania avenue and the hall.

The site adjoins the parking south of the treasury and had been acquired by the government. Everybody agrees with the senator that the thing ought to be done but all the members of Congress will not vote for it. A good many of them reckon that \$15,000,000 for this structure would mean some millions less for buildings in their own district and they figure that the need for ornate federal structures in the cities of Sauterville, Bad Axe, Halfway and Fairview are reasonably important.

Down at the forest service, on the wall of the office which "Giff" Pinchot used to occupy, hangs what appears to be a family tree. It has little wiggly branches, zig-zagging out from a main shoot. The trunk, so to speak, was labelled "Forester" and the branches were designated as "operation," "eliviculture," "alivie," and so on.

In Pinchot's day, that family tree was a pretty graphic plan of the organization of the forest service. It showed just the relation each of the subsidiary divisions of the bureau bore to the other; it indicated who was responsible. At a glance one could see whether grazing matters were handled under "operation," or "maintenance," or "products," or what not.

But now the artist who should attempt to reconstruct the thing would have to break the symmetry of its branches and the tout ensemble would resemble nothing so much as a Christmas tree after two months in the back yard.

No sooner had Pinchot been dismissed by presidential order than Secretary of Agriculture Wilson took up his official axe and began chopping off the branches on this tree—pruning down the army of various officials.

First, he lopped off that magnificent branch which joined the main trunk near the top and was labelled "financial." The splendid shoot which tapered down to the label "law" was next ruthlessly removed. Then, the crowning glory of the tree, that fat branch, "educational division"—it was also called "division of information," and ought to have been dubbed "press bureau"—was sacrificed. There may be more chopping in the future.

Secretary Wilson has so circumscribed the duties of the forest service that all there is left to do is to grow trees, and water those already growing. Henry Sloan Graves, Pinchot's successor has already announced that this is his slogan. He's decided to let the family tree of the service worry about without any attention, and to let time heal its grievous cuts.

The chief forester doesn't pose as an organizer. Pinchot was. There is no higher compliment to his energies than the present centralization of affairs in the forest service, the outgrowth of his ideas, the work of his brain. Graves is a tree-grower pure and simple—and says so himself.

About the State

Chas. A. Griswold has returned to his home in Springfield from the hospital at Hanover, N. H., having undergone an operation of the finger and treatment for blood poisoning. Several months ago Mr. Griswold, who is a machinist, got a small steel splinter in a finger of the right hand. The small particle of metal was removed without difficulty but later blood poisoning in a violent form developed, the patient being in very critical condition several weeks.

Mayor J. E. Ruck has received a letter from a New York firm, which has its headquarters in that city, and which is now doing business in Vermont, saying that the company would locate its plant in Burlington if the usual concessions, such as exemption of taxation for a period of years, were granted. The mayor will consider the proposition and probably call a city meeting. During the firm's operations in Vermont, the total payroll has amounted to \$421,500, an average of \$40,000 a year. The name of the firm is withheld for the present.

The large farm house of Mrs. and Mrs. W. M. Granly of South Bridgeport, was burned to the ground Sunday. The house was occupied by Mr. and Mrs. Granly and their nephew, Truman Granly, with his wife and children. It is supposed that the fire caught from a stove in the dining room. The fire broke out early in the morning and neighbors summoned by telephone succeeded in getting out much of the furniture, although they could do nothing toward saving the house. A small shop at the rear was also destroyed, but the good work of the neighbors saved all the other out-buildings from destruction. The house was one of the oldest and best built in town and the loss is about \$7,000. The loss on the house was fully covered by insurance.

The mystery surrounding the man who, when arrested in Springfield, Mass., a few weeks ago, on a charge of forgery of a post office order, gave his name as George Webb, and his home as Plattburgh, is still unsolved, although every possible effort has been made to discover his real name and place of residence. Last October this man met at Bradford, Vt., a young lady school teacher from Springfield, who was at Bradford for her health. He then gave his name as Walter Adams and said he was an agent for agricultural implements. He made love to the young lady and they were soon married. His wife knew practically nothing of his past life and his claiming the name of Webb after his arrest was a surprise to her. His photograph has been sent to Springfield in hope that someone might identify him but no one has yet been found who knows the man although several say they have seen him. Adams was convicted of the attempted forgery and is now in the federal prison at Atlanta, serving a three years' sentence for his crime.

BASE BALL LEAGUE FORMED.

Made Up of Four Teams, Scheduled to Play Sunday Games.

A four-team base ball league has been formed, consisting of Bennington, North Adams, and Pittsfield, Mass., and Schenectady, N. Y. The series of games will begin July 1 and continue through the season, and Sunday games will be played. North Adams or Pittsfield are to play at Tudor park in Bennington every alternate Sunday afternoon, and the teams will alternate at home and away. The Bennington team will play at least four games a week, two at home and two out of town, and will be composed of salaried players.

Nearly all of the players have been engaged for the season, which will include Pitcher "Al" Haynes of the university of Vermont, Harry Watson, a former Williams college player, Joseph Carroll of Trinity, Lloyd Waters of Rensselaer Polytechnic Institute, Cable Prindle of Williamstown and Frank Hickey of Watertown N. Y. All played on the last team of last year.

The team's season will open May 31 with a Williams college team, as has been customary for a number of years.

WOOD ALCOHOL CAUSES DEATH

John Newell, Painter, Drank It to Top off Jag—Was Working at Rutland Blacksmith Shop and Took Frequent Nips of It.

Rutland, Feb. 23.—John Newell, aged about 50 years, died at 2:15 o'clock yesterday afternoon at the Rutland City hospital as the result of finishing off a jag with frequent drinks during the day Monday from a bottle of wood alcohol. The man was a painter and had been employed, off and on, during the last three weeks, at the L. F. Miner blacksmith shop on Pine street. He had been drinking too freely and Monday, departing from the usual methods of "sobering off," he found a bottle of wood alcohol in the shop and partook liberally of it during the day. The fact was not discovered until about noon yesterday, when he arrived at the shop, plainly in agony, and Mr. Miner called Dr. C. F. Ball.

When the physician arrived, the man was already blind from the effects of the poison. The R. J. Seaman ambulance was called, and he was rushed to the hospital, but all efforts to save him were futile.

Newell was conscious and when asked by the doctor if he did not know that the alcohol was poison he acknowledged that he did. He also said that he had had numerous drinks from the bottle. Dr. Ball considers that the man had no intention of suicide, but that he was in a condition where he did not consider what the results of gratifying his appetite would be.

According to Newell's story to the man at the shop with whom he worked, he had formerly been employed for several years in Fair Haven. Nothing is known about his relatives.

IN LOCAL MARKETS

Dressed Pork is Reported as Firm

FRESH EGGS ARE EASIER

Butter is Also Easier—Potatoes Are

Quoted from 45 to 50 Cents a Bushel—Other Market

Quotations.

Barre, Vt., Feb. 23, 1910.

Dressed pork firm. Fresh eggs easier, also butter. Wholesale quotations:

Dressed pork—10% @ 11c.

Veals—Fancy, 10 @ 11c.

Lamb—12 @ 14c.

Fowls—16 @ 18c.

Chickens—18 @ 20c.

Fresh eggs—23 @ 25c.

Butter—Creamery, 30 @ 31c; dairy, 28 @ 29c.

Potatoes—45 @ 50c bushel.

RICKER'S MARKET.

Decided Increase in Supply Last Week, With Little Change in Price.

St. Johnsbury, Feb. 23.—The receipts at W. A. Ricker's market for the past week were:

Poultry—250, 11 @ 12c.

Lamb—10, 3 @ 6c.

Hogs—130, 8 @ 14c.

Cattle—102, 9 @ 14c.

Calves—250, 8 @ 9c.

Milk cows—25 @ 35c.

IN BOSTON MARKETS.

Large Receipts of Eggs and Market Generally Firm.

Boston, Feb. 23.—The local market for dairy produce does not change much. There is a good, steady demand for butter, and as receipts are light and outside markets show a strongly upward tendency, the market is quite firm. Local dealers who buy in the country on the basis of New York, Elgin or Chicago are obliged to pay from 20 to 30 c a pound more than a week ago, and it is likely that local selling prices will be higher, in consequence. Cheese is still quiet, but only moderate quantities are received, stocks are light and prices are as firm as ever. Receipts of eggs are still rather large, but there is much stock, particularly from the West, that is held off the market by shippers' restrictions. The amount available is little more than sufficient for wants, and a firm market prevails.

Butter—Fancy northern creamery, 33 @ 34c, boxes and prints 24 @ 25c, western and 32 @ 33c, fair to good creamery 30 @ 31c, fine storage creamery 30 @ 31c, dairy 29 @ 30c.

Cheese—New York full cream fatty 18 @ 19c, Vermont 18 @ 19c, Wisconsin Young America 18 @ 19c, aged 18 @ 19c.

Eggs—Fancy henry 30 @ 31c, choice eastern 30 @ 31c, fresh western 29 @ 30c, storage 25 @ 26c.

The greatest hindrance to the development of bridges at three points where the Euphrates is now crossed by ferries. It is now proposed to build bridges.

Commanding officers in the British navy are allowed \$25 per year to purchase literature for use in the study of foreign languages by junior officers under instruction prior to passing for lieutenant.

Bendigo, Australia, has started a reform movement to stop the chiming and striking of all night public clocks. The city being moved thereby by Miss Melba. The prima donna passed a sleepless night in Bendigo owing to the din of clocks, and she has threatened never to visit the city again. The complaint has been discussed by the Bendigo city council, and it was decided to silence the clocks from midnight to 6 a. m.

TO PALE, THIN PEOPLE

Druggist D. F. Davis offers to Pay for Samosé if It Does Not Make Thin People Fat.

Samosé, the remarkable flesh-forming food, should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation, so that when taken for a short time nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

Weigh yourself before you commence the use of Samosé, and you will notice a steady gain. Samosé is a scientific flesh-forming food that restores the thin and scrawny to their proper weight and fills the weak and debilitated with vigor and vitality.

Such remarkable results have followed the use of Samosé that Druggist Davis is willing to pay for the treatment if it does not give the desired results. He makes this offer generally and wants all who are thin, weak and out of health to get a box of Samosé from him on these terms.

ESTATE OF ESTHER A. NOYES.

STATE OF VERMONT. The Honorable District Court of the County of Franklin, do hereby certify that the persons interested in the estate of Esther A. Noyes, late of said county, deceased, claiming the same, have been duly notified to appear at said court on the 2nd day of March next, to show cause why said estate should not be administered to said decedent's heirs and assigns. And that the said court has ordered that public notice thereof be given to all persons interested in said estate by publishing this order three weeks successively previous to the day aforesaid, in the Barre Daily Times, a newspaper published at Barre, Vermont. Therefore, you are hereby notified to appear at said court on the 2nd day of March next, to show cause why said estate should not be administered to said decedent's heirs and assigns in said estate.

Given under my hand, this 12th day of February, 1910.

GEORGE L. STOW, Judge.

West Feb 12-23, Mar 2

Won't Need a Crutch

When Editor J. P. Seaman of Cornhill, N. C., broiled his leg badly, it started an ugly sore. Many salves and ointments proved worthless. Then Buckle's Arnica Salve healed it thoroughly. Nothing is so prompt and sure for ulcers, boils, burns, bruises, cuts, corns, sores, pimples, eczema or piles. 25c at Red Cross Pharmacy.

FOUR LINES FOR 25 CENTS

The Times will publish Wines, Lard and Butter, for sale, at the rate of four lines for twenty-five cents for the first insertion and five cents for each subsequent insertion.
